

#ACOUSTIC

Lillstugan

"Discover a new sense of focus"

Environments characterized by chaos and interruptions often lack focus, leading to diminished productivity and creativity.

A dedicated space for focus, offering a serene and comfortable environment, tackles these issues efficiently

Personal Focus Space

Optimized for reading, working, studying or hobbies
Be focused.

STC 25dB (± 3 dB)
& RT0.25s (± 0.1 s)

Maintaining a quiet environment that is made for concentration, learning, thinking and reading, is vital for progress in stressful situations.

- Speech Intelligibility ①
- Frequency Response ②
- Reverberation Time Test ③
- Sound Insulation Test ④

Acoustic Index

Environmental Friendly

Lillstugan can be easily relocated within minutes.

By adjusting the levelling legs, the castors can seamlessly take over and transport the Lillstugan to any desired location

The castors are attached securely to the steel base panel, capable of supporting up to 100kg.

Flexibility

Focus wherever you desire.

Every aspect is taken into account with Lillstugan, including top-notch acoustic technology, versatility, and safety features.

Each element is carefully thought out to enhance the looks of your environment.

In addition, the assembly process can be finished within just 30 minutes.

Easy to Install

Lillstugan Furniture

Equipped with all the essentials, including a soft couch, sturdy tabletop, bright LED-lamp, powerful power socket, and built-in ventilation, the “Cottage POD” contains everything you need.

The PIR motion sensor is designed to conserve energy by automatically shutting off when no movement is detected for 5 minutes

External Finish

6063-T5 aviation aluminum door frame;
Overall cladding technology sound-insulation cloth;
Supported by 15 + 15mm carbon polymer panels
and a steel frame at the bottom, equipped with
movable casters

Interior Finish

9mm thick polyester fiber sound absorption panel +
wrap technology acoustic fabric

Specification size

[External] W1100*D900*H2100MM

[Internal] W990*D800*H1950MM

[Weight] 200KG

[Weight capacity] 100KG

Made of 3 types of boards:

5mm carbon polymer panels on both sides and the back,
30mm honeycomb panels on the top.

Lighting

4000K (150Lx) Daylight LED lighting brightness adjustable

Floor

full pavement technology sound-absorbing carpet

Door

6063-T5 aviation aluminum frame, 3mm+3mm super white laminated acoustic glass

Desk

Multi-layer solid wood board desktop (desktop height can adjust 700 to 750mm from the base panel), desktop size W760*380*30mm

Hinges concealed heavy-duty hinges

Ventilation volume 30 m3 of fresh air circulated every hour, equipped with Turbo fresh air system

Motion sensor

infrared human body sensor, powers off after 5 minutes of inactivity

Power socket

the number of sockets in the Lillstugan can meet daily usage needs (five holes sockets with USB)
